April 13, 2010

Governor Charlie Crist  
State of Florida  
The Capitol  
400 S. Monroe Street  
Tallahassee, FL 32399-0001

Dear Governor Crist:

On April 9, 2010 the house passed Senate Bill 6 with no amendments added by the house, although many were suggested. This bill affects all students, teachers, and families within the State of Florida. The need to enhance Florida student learning is a goal we all share and wish to improve. But the implications that Senate Bill 6 implies is not only extreme, but premature in its implementation.

This bill was pushed through by force and many good amendments that could have improved the bill were not passed and considered with due judgment. I ask that you Veto Senate Bill 6 for all the teachers, students, and families who already fear what this bill will do to them.

Thank you in advance for taking time out to consider the request that I am asking of you.

Sincerely,

A handwritten signature in black ink, appearing to read "D L Taylor".

Dwayne Taylor  
District 27

“God Bless”
